Carteret students in action

ready, set, app!

an NCBCE initiative sponsored by Lenovo

Registration for NCBCE's 4th Annual Ready, Set, App! (RSA) competition is open! This mobile app building competition is open to all NC high schoolers, and no prior computer science experience is necessary!

RSA provides each team with supplemental tools and a dedicated intern to support them throughout the competition. It serves as a great opportunity for students to develop skills in design thinking by having them find creative and innovative solutions to problems in their community. In addition to this, students will develop skills in coding, graphic design, presentation, teamwork, critical thinking, and so much more.

Registration closes on December 16, 2022. To sign up your team, visit www.ncbce.org/ready-set-app. For any questions, please reach out to Ciera Tucker, NCBCE Program Manager, at ciera.tucker@nc.gov.

Carteret County Spotlight

- Team Facilitator: Mark Thompson
- Tech Team students are working on industry certifications and will complete them by the end of the semester.
- These students also set up workspaces and practiced repairs on Chromebooks and iPads.
- Next, the students will learn how to set up printers on the network.
- They are working with the IT staff to create a support ticket system to be implemented by the beginning of January.

Halifax County Spotlight

- Team Facilitators: Tiffany Taylor, Dr. LaVonne McClain, Chris Beneck
- So far this semester, the students have repaired 50 Chromebooks, and are looking forward to taking the certification test in the near future.

Reminder:

Need help structuring a new program or maintaining an existing one?

Don't forget to meet with your coach!
