

NCBCE AI Fellows

Empowering Educators, Inspiring Innovation

In Partnership with Google.org

NCBCE AI Fellows, in partnership with Google.org, is generating a network of NC educators to serve as artificial intelligence (AI) leaders and mentors in their school communities.

This fellowship will create expanded learning opportunities for teachers and their students throughout the state, sparking enhanced interest and engagement with AI and preparing students for high-demand careers in an AI-enabled world.

WHO SHOULD APPLY?

NCBCE AI Fellows will include a cohort of **20 exceptional middle and high school educators** who demonstrate the following criteria:

- Clear passion or interest in ethical AI education
- Leadership and mentorship potential
- Ability to develop high-quality AI curriculum that stimulate curiosity and learning
- Commitment to professional growth
- Vision for expanding AI education and access

**Applicants may teach in any subject area within grades 6-12.*

MAKE AN IMPACT!

The NCBCE AI Fellows program is poised to **empower** more than **1,000 educators** and enhance learning for **20,000+ students** statewide.

Be part of a program that will impact the future of AI education in NC!
